Abstract

— — —

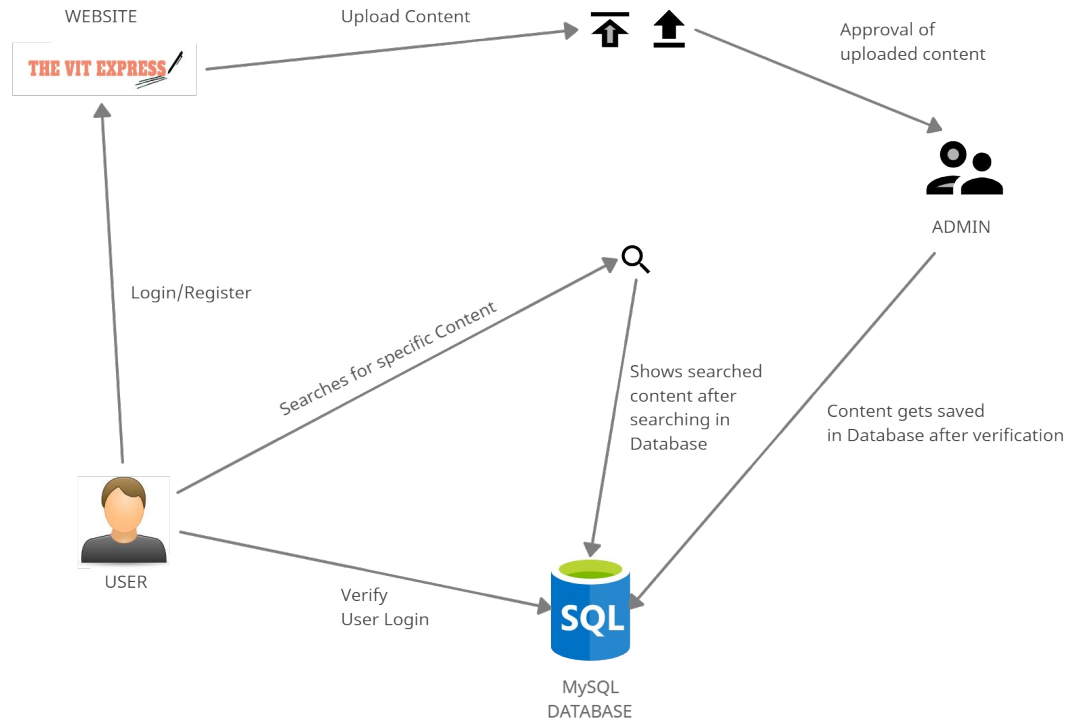

- There is so much news related to college circulating everyday through different social media platforms from unverified sources.
- We are unable to predict if the news is true or not.
- The VIT Express will be a platform which can be a possible solution to this problem where the students will be able to post any unverified news on the platform .
- The news which will be verified by the admins and subsequently posted on the website depending on its authenticity making it available for the VIT community to view and clarify their doubts.

Problem Statement

— — —

The VIT Express aims to keep the VIT community updated about day to day happenings in the college. There is no proper platform for Vitians to know news and announcements frequently. This project has many modules such as posting, saving posts, commenting and subscribing for newsletters.

Process Flow
